Field Level Hazard Assessment (FLHA)

Done at the work spot by the crew before work starts, and again when anything changes

DATE | TIME | COMPANY | JOB / PROJECT

TASK | EXACT LOCATION ON SITE

CREW LEAD | WEATHER AND SITE CONDITIONS

Before starting

- ☐ Work area walked with the crew
- ☐ Tools and equipment inspected
- ☐ Emergency contact, first aid and muster point known
- ☐ Permits and site rules for this task checked
- ☐ PPE for this task on and in good condition
- ☐ Other trades nearby and their hazards known

Hazards and controls

#	Hazard: what could hurt someone	Control: what we will do about it	In place
